

Rio Tinto Apprentice Program 2022

Applications for the 2022 Rio Tinto Apprentice Program are now open till Friday 1st October 2021.

Our four-year Apprentice program will provide you with hands-on technical experience designed to give you the right skills and knowledge as you work towards attaining your trade.

Disciplines

You can work towards a nationally recognised trade qualification in the following areas:

- Electrician
- Heavy duty diesel mechanic (mobile equipment)
- Mechanical fitter (fixed plant)
- Fabrication
- Auto electrician

Eligibility

To be considered for a position at one of our residential or fly in fly out (FIFO) sites, you must be:

- Fit for work
- Able to demonstrate mechanical aptitude and have a genuine interest in your chosen trade

It would be desirable if you have successfully completed a pre-apprenticeship, Cert II in Autonomous Workplace Operations or related certificate I or II qualification and have undertaken relevant work experience.

If you want to work with the latest technology and innovation, in an environment where we empower and challenge you to grow, learn and develop, then apply today!
